MODULAR AUDIO/VIDEO RACKS

THE SE SERIES The classic SE Series is a great choice of audio/video furniture for individuals who want to bring exceptional taste and excellence to the total audio experience. Heavy gauge 1 1/2" [38mm] steel tube assembly - available in a virtually indestructible Black baked powder-coat finish - supports 3/4" [19mm] curved and shaped panels that are available in a luxurious natural wood veneer - Black Oak (B). As easy as it is to assemble as it is impressive to look at, the SE can be assembled in only 10 minutes. The SE - Video Series is designed for the current generation video monitors. Sleek appearance and strong by design, the SE is clearly for those who appreciate quality.

MODULAR AUDIO/VIDEO RACKS

THE XT SERIES The XT Series has been built for the serious connoisseur who recognizes the importance of bringing an aesthetic touch and grand functionality to a room. The XT Series design makes it possible to turn all of your audio/video components into the Ultimate Furniture Design System. The XT - Video Series is designed for the current generation video monitors. The XT-V3 44 can handle even the heaviest and highest end video equipment. Curved and shaped 3/4" [19mm] shelves that are available in a luxurious natural wood veneer - Black Oak (B). Strong heavy gauge 2" x 2" [51mm x 51mm] steel tubes create a rack system that is extremely strong and rigid. This priceless gem is a beautiful and magnificent combination of strength, style and versatility. It's a must for those who only accept the best.
